

16th January 2018

Dear Parent/Carer

STEM Day – 31st January 2018

We are delighted to inform you that the next Ely College STEM day (science, technology, engineering and maths) is being held on Wednesday 31st January in partnership with Anglian Water.

All year 9 East students will be divided into teams and participate in 4 different challenges that involve teamwork, designing, planning and building to solve real world problems. Year 9 students on the East half will be off timetable periods 1-4, but will remain at Ely College and will have break, lunch and period 5 as normal. Students must wear their school uniform.

Yours faithfully

Mr S Craven
Curriculum Lead Science
