25<sup>th</sup> January 2017

Dear Parent/Carer

### **Construction Careers Day, Cambridge Regional College - Friday 27<sup>th</sup> January 2017**

As part of the WJEC Construction course Ely college and Cambridge Regional College have teamed up with some of the region's top construction employers, including Mick George, Flannery, Lynch and many more, to host a Construction Careers Day on Friday 27<sup>th</sup> January.

With the boom in the construction sector around East Anglia, including the A14 projects, there has never been a better time to get into the construction trade. It promises to be an exciting hands-on 'have a go' event; Flannery's and Mick George will be bringing in four full size plant excavators on which students will be able to have a go along with some fun activities. Volvo will be bringing in plant operating simulators for students to experience and there will be a range of top construction employers for students to talk to.

The purpose of the visit is to reinforce the learning taking place in the classroom and to allow students to plan for Post 16 progression. The event will also support the understanding of roles and opportunities in the construction industry, which is covered in unit 3 of the construction course.

We plan to take the students to CRC by mini bus departing Ely College at 12:20, returning at 3:00pm. This opportunity will be open to students with a good behaviour record, those wishing to further their studies in construction and that are up to date with class work.

Yours faithfully

A handwritten signature in blue ink, appearing to read "D Mackintosh".

Mr D Mackintosh  
Construction Teacher
