Dear Parent/Carer

STEM Event

We are holding our first STEM (science, technology, engineering and maths) event of the year on Tuesday 13th November and your child has been selected to participate.

The event is being held at school and will take your child out of two of their usual lessons (either periods 1 and 2, or periods 3 and 4). The rest of the school day (start, end, break, lunch and pickup) is unaffected.

Our STEM events last year were very popular and engaged the students in a variety of activities including building race cars and robots, solving problems associated with clean drinking water and building a house out of giant blocks. They present the opportunity for our students to gain experience in STEM subjects outside of the normal curriculum and helps them build on their teamwork, leadership and creativity skills.

Please contact me if you have any questions or concerns: scraven@elycollege.co.uk

Yours faithfully

Mr S Craven
Director of STEM
