

Meningitis ACWY and Tetanus, Diphtheria & Polio Vaccinations

Year 9 (Boys and Girls)

School: Ely college Academy

The date of your Immunisation Session:

14th June 2019

Please email the information to all parents of Year 9 (Boys and Girls)

The **portal** will close on:

10th June 2019

To enable the smooth running of the session, with as little disruption to your school day as possible, please:

- Email the MenACWY/DTP parent information letter to all Year 9 students via parentmail.
- Provide a suitable **location** for the immunisations to take place (eg School hall, classroom or library). We will require desk space for working on laptops.
- Please prepare for us to be with you **all day**; our aim is for the children to be out of their class for as short a period as possible. We do appreciate that space is at a premium, and we understand if our staff need to clear up for lunch. If our staff could have a break in your staff room that would be really appreciated.
- In order for the session to run as smoothly as possible and to help prevent the risk of errors, we will access children's health records during the immunisation session. Please could you let us know if there are any problems in accessing the internet at your school and whether you are able to share your **wifi** password with us in advance?
- If you have students who need information in other **languages**, please contact us:

0300 555 5055

ccs-tr.cambsimmsteam@nhs.net

Thank you for your continued support in helping us deliver this vital Immunisation Programme

Kind regards
