

4th June 2020

Dear Parent/Carer

GCSE Engineering NEA (coursework)

AQA GCSE Engineering exam board have now released the context and problem for the current Year 10 into Year 11 non-examined assignment (NEA).

Students must start on this work now. It is worth 40% of the qualification for Engineering and will continue until February 2021 half term. At this stage, all work can be comfortably completed at home using assignment notes published on Teams.

Regular live lessons will be available from Mr Mawby and Mr Fisher to their respective classes. These will take place in one of their designated lesson times and students should look out for their invitation to join. Students can also chat via Teams or email their teacher if they have any questions. Each week, work will be set via an assignment in Teams. It is essential that students complete each task in a timely manner as each task builds upon the previous piece of work.

Please discuss this with your son/daughter and if you have any questions about the NEA, then please contact us via email: lmawby@elycollege.co.uk or afisher@elycollege.co.uk

Yours faithfully

Mr L Mawby
Vice Principal

Mr A Fisher
Teacher of Engineering

Ms V Collin
Subject Lead D&T
