13<sup>th</sup> April 2021

Dear Parent/Carer

## Year 9 – Set Changes

Over the next couple of weeks there will be some changes made to Maths and Science sets for some students that will come into effect on Monday 26<sup>th</sup> April. If your child is affected then they will be spoken to by either their Maths or Science teacher in the coming days. Any changes will be formally communicated home on Tuesday 20<sup>th</sup> April.

The changes originally were to have taken place around the end of the Autumn term 2020 but were delayed due to the January lockdown and ensuring we had enough evidence for the changes. There will be some further changes to Science sets at the end of this academic year as some students will start to follow the separate science courses. More information will come out about that later this term.

If you do not hear from us next week, then please assume that there is no change of grouping for your child.

Yours faithfully

Dr KJ Norton-Berry  
Assistant Principal
